Engineered for Extreme Performance Huijue Group's 24V lithium iron phosphate battery delivers 2.56 kWh usable energy - enough to power a 500W RV air conditioner for 5 hours.

It boasts excellent safety, high energy density, long lifespan and superior temperature performance. We also offer a hybrid solar inverter that can connect to a battery. It features simulated sine wave output,

In France, an increasing number of households, industrial and commercial enterprises are adopting solar or backup power solutions. With its factory-direct pricing, high efficiency, long lifespan, and

Huijue's lithium battery-powered storage offers top performance. Suitable for grids, commercial, & industrial use, our systems integrate seamlessly & optimize renewables.

Our comprehensive product range includes high-performance lithium batteries, integrated storage systems, and intelligent energy management solutions.

Energy storage battery cabinet HJ-SG-P type: This series of products integrates battery PACK, BMS system, high voltage box, power distribution unit, temperature control system, and fire protection

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes.

The launch of the solar power and battery storage project marks a pivotal moment in the clean energy transformation, allowing renewable energy to be dispatched 24 hours a day, seven days a week,

The lithium iron phosphate batteries used in HUIJUE Group's energy storage systems feature the following characteristics: long lifespan, lightweight, high power, wider temperature adaptability

France Huijue high-performance lithium battery pack

range,

Designed for scalability, the 48V lithium battery delivers 2.4kWh of storage per unit, enabling seamless stacking up to 15kWh configurations. Unlike lead-acid alternatives, it maintains 95% capacity after
