Rapid solar capacity expansion overwhelms the grid, PV manufacturers compete for market shares, and then large target markets slap import tariffs on Chinese PV products, taking off

IEA PVPS has released the latest National Survey Report of PV Power Applications in China 2024, prepared by Task 1 with data from the National Energy Administration (NEA) and the China

The following analysis is based on a novel dataset of province-level power generation that we have created at the Centre for Research on Energy and Clean Air, to track trends

In 2023, an estimated 96% of newly installed, utility-scale solar PV and onshore wind capacity had lower generation costs than new coal and natural gas plants. In addition, three-quarters of new wind and

Learn how to translate text, speech, images, documents, websites, and more with Google Translate.

Some of the largest projects under development are in the Inner Mongolia region in northern China. The Kubuqi Desert in Inner Mongolia is the planned site of the largest collection of

The government incentives have also contributed to the curtailment of solar energy, as many of the solar projects have been built in northern and western regions of China where there is a low demand for

Amid China's rapid solar photovoltaic (PV) expansion, a significant efficiency gap persists between installed capacity and actual generation. This study applies a three-stage Slack

To address the imbalance in the development of PV industry, first, this paper employed the integrated fuzzy analytic hierarchy process?data envelopment analysis (FAHP?DEA)

# Solar power generation efficiency in Northeast China
